

February 17<sup>th</sup>, 2023

**Fundraiser:**

The American Lebanese Community Advisory Council (ALCAC), with leadership from the American Lebanese Medical Association (ALMA) chapter in Arizona, is asking for donations to support a project to provide critically needed medications to the Lebanese Army personnel. Medical and medication support is one of the few remaining benefits holding this institution together. The donations will be used to purchase the needed medications in bulk through an established accredited source. They will be consolidated into a cost efficient shipment. The Fundraiser is active now through January 15th, 2023. Your donations are tax-deductible in support of a 501(c)(3) organization.

**Time:**

October 2022 to January 2023
